

CARDHOLDER USER GUIDE

SHAZAM BOLT\$ is a fraud transaction alerting, balance monitoring and ATM locator application. Person-to-person (P2P) money transfers are also available for SHAZAM BOLT\$ cardholders.

ENROLL

Download SHAZAM BOLT\$ for free from the Apple App Store, Google Play or log in to bolts.shazam.net and enter your full card number to determine if your card is eligible.

Accept product terms and conditions, and proceed with the card verification process. Depending on the setup with your financial institution, you'll enter some additional card information as well as your PIN or Social Security number. Finally, create your username, password and user profile.

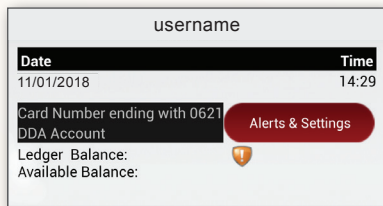

Note: Passwords must contain at least one capital letter, one lowercase letter, one number, one special character (!, @, #, \$, %, &, or *) and be 5 to 32 characters in length. Cardholders are required to change their password every 90 days.

Once you are logged in its really easy to add an additional card, just tap the **Add Card** button and follow the same prompts for registration. Accept the terms and conditions and verify the card.

ACTIVATE ALERTS

Once logged in, you'll see your balances and the **Alerts & Settings**. Tap on the **Card Alert Settings** button.

In the Card Alert Settings tab, you may update the following settings:

- Transaction amount alerts (set amount threshold)
- Internet and phone transaction alerts
- International transaction alerts
- Enter a secondary email address to be used for transaction-level alerts

Note: The Suspected Fraud Alerts setting is configured by your financial institution. The SHAZAM BOLT\$ Notifications setting is not optional and indicates SHAZAM BOLT\$ will send email notifications to you whenever your user profile is edited.
